

NEW COOKBOOK RELEASED TO RAVE REVIEWS ...

THE GARLIC FARMERS' COOKBOOK

"If what they tell us is true about the health benefits of the garlic, these folks will live to grow old."

— Kitchen Chemistry Journal

"Not another garlic cookbook!
Enough already!"

— Printer's World Digest

"I'm glad these folks are in the field and not the kitchen!"

— Ms. Madeline Barnhiemer, Author,
5 Star Chronicles

"Is it good taste or bad breath?"

— Organic Cooking

"Ou! Ou! Yummy-Yummy!
BAM! BAM!"

— Celebrity-Chef Magazine

"In most of our restaurants today, Chinese grown and processed garlic is kept in a five-gallon plastic bucket on the floor of the cooler and used as a basic spice. This book is a collection of family recipes from the kitchens of garlic farmers, for the garlic grown on their land; braided and hung in the pantry; peeled, crushed and cooked by hand and heart; and enjoyed as a vegetable."

— Restaurant Review, L.L.A.
